

STARSHIP \$SSHIP WHITEPAPER V2

\$SSHIP COMMUNITY

\$SSHIP community is built to show our support and love to SpaceX's launches of StarShip. Elon is the CEO of SpaceX and he has been tweeting about StarShip a lot. The first launch of StarShip (20th May 2023) was quite successful. Elon said the next Starship launch will happen in 2 months. \$SSHIP is a community driven token and we have many investors here who sense huge potential.

DEPLOYER PLATFORM STARBASE

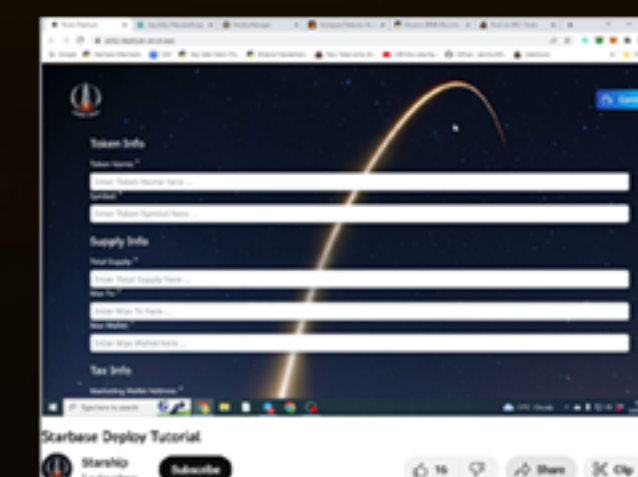

Link: <https://www.starbase.cloud/>

Starbase is a token deployer platform where users can easily deploy the ca (including setting of names, symbol, max txn , max wallet etc...). There is 0 charge for using Starbase but only 0.5% tax each transaction after the token is live.

This benefits both the Starbase users (devs) and StarShip. Around 80% of the fund generated from the 0.5% tax will be used for the development of StarShip \$SSHIP including buyback, marketing, and utility development. Other 20% will go for dev wallet as salary.

We also have created a tutorial video to teach users step by step about how to deploy using Starbase:

This is just the V1 version for now. We will upgrade it step by step with multi-chain and different Ca with different functions.

A screenshot of the Starbase Deployer Platform V1 interface. The interface is set against a dark blue background with a glowing orange arc. It contains several sections with input fields: "Token Info" with fields for "Token Name" and "Symbol"; "Supply Info" with fields for "Total Supply", "Max Tx", "Enter Max Tx here", "Max Wallet", and "Enter Max Wallet here"; and "Tax Info" with fields for "Marketing Wallet Address", "Buy Marketing Tax", "Enter Buy Marketing Tax", "Sell Marketing Tax", "Enter Sell Marketing Tax", "Buy Auto LP Fee", "Enter Buy Auto LP Fee", "Sell Auto LP Fee", and "Enter Sell Auto LP Fee". A "Deploy" button is located at the bottom.

DEPLOYER PLATFORM STARBASE Q/A

How this StarShip Deployer benefits \$SSHIP ?

0.5% tax each transaction after the token deployed using is live. Around 80% of the fund generated from the 0.5% tax will be used for the development of StarShip \$SSHIP including buyback, marketing, and utility development,

Why chose our platform rather than others ?

Our team has a strong with good experienced devs especially low mcap launchers.

How long it will take to make V2 live ?

It will take around 1 month before we start upgrading the Starbase. For now, our platform works really well and there are several successful projects launched using Starbase already.
